

Kick the Chemicals! Care for your Garden and Beyond

You can solve garden problems while creating landscapes that are in sync with the natural environment. Join us for to learn how to attract and protect pollinators in your garden, successfully manage rats, and replace that thirsty lawn – all without chemicals!

Bring in the Pollinators!

Saturday, January 22, 2022, 10 to 11 a.m.

[Click here to register](#)

In addition to bees and butterflies, the insects, birds, and mammals that pollinate plants are vital to sustaining our food supply and ecosystems. Come learn who these garden visitors are, how to create environments to attract and protect them, and see the wide variety of nectar and pollen-rich flowers you can plant in your garden to support them throughout the seasons.

SPEAKER: Suzanne Bontempo, Our Water Our World Program Manager

Suzanne works as an environmental educator, teaching the principles of Integrated Pest Management for sustainable, eco-friendly pest management around the home and garden. She is an IPM Advocate, a Bay Friendly Qualified Landscaper, QWEL certified, a Master Composter, and loves teaching folks how to grow bountiful gardens that are also safe and healthy for you, your family, and the environment.

SPONSORS: YardSmartMarin, UC Marin Master Gardeners, Our Water Our World

This hour-long webinar is FREE and open to the public via Zoom! Questions welcome.
